Mr Gregg submitted as a matter of precaution, the following Memorandum.

Mr Gregg desires he wishes to mention that in his opinion, there was danger to be apprehended from Mr Walter M Gibson's residence in the Kingdom. He was a Mormon or an agent of the Mormons; - if merely the latter, he should be all the more dangerous. He has reason to think Gibson was a desperate adventurer, - a man not to be trusted but carefully watched. Gibson's mission here was to spy out the land, to see if there was an opening for Mormonism, a chance to take possession on the part of the Saints. All his policy was selfish and hostile to the Kingdom. Mr Gregg further said that yesterday, in the absence of His Royal Highness he wrote to the Governor of Maui, advising him to keep a close watch upon all the movements of Mr Gibson.

The Judge Advocate replied upon
which it appeared to the Court that
words & Charge in Order, were in Accordance
of the Articles of War, by the Common
Law.

The Judge Advocate read the Application
of the Colonel Corcoran, dated 15 October

Some were of considerable discussion upon
the subject.

The Judge Advocate explained his view that
the Accused & Prisoner, before the Court
Confined upon him by law, should deal
with the Question, on principles of Civil

Ministerial Conference in the Foreign Office 20 March, at 12 oClock

Prince Kungchunchus submitted to the Cabinet for his opinion, the Petition of Count Eulenburg, signed by C Brown & Co & others praying for a reduction of Duties on Iron imported by the Bank Archive to the extent of £92-4 the Duty paid on the import of such Iron.

The Cabinet stated that as our Tariff provided a fixed Import duty, on Invoices valued in the Customs Pound Sterling, in the legal currency of those Countries, as it existed when the Tariff was framed; & as since that date the intrinsic value of the U.S Pound had fallen to one third of its former worth, & late events deprecated; and as most of the one half of our Import duties were derived from the Commerce of the Citizens of Said States, there would be both an equity & a Sound policy, in admitting such a reduction as to free all Imports & Manufactures goods from a higher duty, than what was enforced by the Tariff; but that under the 16 & 79 Articles of our Constitution, the Cabinet, however desirous that Prince, as Minister of Finance Could appose authority to make that reduction, without the Sanction of an Act of Legislature

The Prince said, he was most desirous of granting the request of the Petitioners, but he could not see clearly that he had the Power.

After some further discussion it was agreed that the Prince should take the legal opinion of the Chancellor, as Attorney General, on the question & that act accordingly - & that if any reduction were made on duty or Bill of indemnity would be required from the next Legislature
